These Terms of Service are the agreement between you and LeadTextor LLC for the use of LeadTextor. Please read them carefully before you create an account or use the Service.

01 Agreement and Eligibility

The short version. LeadTextor is software for real estate businesses in the United States. You bring your own contacts, and you are responsible for having permission to message them and for following the law. You pay from a prepaid Wallet Balance. Monthly fees, usage, phone numbers and carrier registration fees are not refundable once delivered, with the automatic returns and cancellation refund described in Section 09 and in our Refund and Cancellation Policy. Please read the full text below, which is what binds both of us.

1.1 Who we are. These Terms of Service (the "Terms") govern your access to and use of LeadTextor, including the website at leadtextor.com, the application at app.leadtextor.com, our mobile and browser notifications, and every feature, integration and tool we provide (together, the "Service"). The Service is operated by LeadTextor LLC, a Wyoming limited liability company registered at 1309 Coffeen Avenue STE 1200, Sheridan, Wyoming 82801, USA ("LeadTextor," "we," "us" or "our").

1.2 Acceptance. You accept these Terms when you create an account (including by ticking the box that confirms you agree to them), or when you access or use the Service, whichever happens first. When you accept these Terms, you also accept the Privacy Policy, Refund and Cancellation Policy, Acceptable Use Policy and Cookie Policy that are listed in Section 1.5, and one acceptance covers all of them. If you do not agree, you must not use the Service.

1.3 Businesses in the United States only. The Service is offered to businesses and professionals located in and operating in the United States. It is not offered to consumers for personal, family or household use. If you accept these Terms for a company or other organization, you confirm that you have the authority to bind it, and "you" means both you and that organization.

1.4 Age. You must be at least 18 years old and legally able to enter into a binding contract.

1.5 What makes up the agreement. These Terms, together with our Privacy Policy, Refund and Cancellation Policy, Acceptable Use Policy and Cookie Policy, form the entire agreement between you and us about the Service. If a policy deals specifically with a subject (for example, the Refund and Cancellation Policy on billing events, or the Acceptable Use Policy on messaging conduct), the more specific policy applies to that subject.

02 The Service

2.1 LeadTextor is software. LeadTextor is a cloud-based CRM, texting and deal management platform for real estate professionals and related businesses. It is not a marketing, telemarketing or lead-generation service. We do not contact anyone on your behalf, we do not generate leads for you, and we do not sell or provide contact data for marketing purposes. You bring your own contacts, buyers and deals into the platform and you remain solely responsible for how they are used.

2.2 What the Service includes. Depending on your plan and account settings, the Service includes:

- Text messaging (SMS), the shared Inbox for two-way conversations, and quick replies and templates, including follow-up templates.
- Contact lists, CSV import, tags, lead statuses and a Do Not Contact list.
- Campaigns, scheduling, follow-up campaigns and multi-step Automations.

- Phone number provisioning, number health monitoring and call forwarding to a phone number you choose.
- Assisted A2P 10DLC registration, which is the carrier registration required to send business text messages in the United States.
- The Deal Board, cash buyer lists and buyer matching, and files you attach to a deal.
- Skip Tracing, the Phone Validator, reminders, analytics and reporting.
- AI-assisted writing and conversation tools.
- Notifications in the app, by push notification and by email.
- Integrations with third-party tools, such as Zapier, Make, GoHighLevel and Podio.

2.3 Plans and limits. The plans we currently offer are Starter and Professional. Each plan has a monthly sending cap and a daily sending limit, shown on our Pricing page and in your account (currently 10,000 messages per month and 600 per day on Starter, and 20,000 messages per month and 1,000 per day on Professional). The monthly cap is a limit, not a bundle of free messages. Every message is billed as described in Section 09. We may set additional limits to protect the network and other customers. You can change your plan and, where available on your account, buy extra capacity for the current month, as described in Sections 9.13 and 9.14.

2.4 Third-party networks. Messages travel through mobile carriers and other third-party networks that we do not control. We do not guarantee that any message will be delivered, delivered on time, or delivered in a particular form.

2.5 Changes to the Service. We improve and change the Service over time. We may add, modify, suspend or discontinue any feature at any time. Where a change materially reduces a paid feature, we will try to give notice in the app or by email.

2.6 Support. Support is provided through the live chat in the app and by email. Priority support is included on every plan. Support hours and response times are not guaranteed.

03 Your Account

3.1 Registration. To use the Service you must create an account, choose a plan, and give accurate and complete information, including your business details. You agree to keep that information up to date.

3.2 Security. You are responsible for keeping your login details confidential and for everything that happens under your account, whether or not you authorized it. Tell us immediately at **support@leadtextor.com** or through live chat if you suspect unauthorized use. You may not share one account between unrelated businesses, and you may not let people outside your organization use your account.

3.3 Support access. To help you, authorized LeadTextor staff can view and act inside your account (for example, to diagnose a problem, review a billing question or set up a feature at your request). We use this access only for support, security, compliance and operating the Service.

3.4 Account review. We may ask you for information or documents to verify your business, your use of the Service, or your messaging practices, and we may restrict your account while we review.

04 Your Legal Responsibilities

4.1 You are responsible for compliance. You are solely responsible for making sure that your use of the Service, and every message, call, list and record you handle through it, complies with all applicable laws, regulations and carrier rules, including:

- the Telephone Consumer Protection Act (TCPA) and its rules;

- A2P 10DLC and carrier and industry messaging requirements (including CTIA guidelines);
- federal and state telemarketing, text messaging, Do Not Call and quiet hours laws;
- federal and state privacy, consumer protection and data security laws; and
- any law that applies to real estate wholesaling and marketing where you operate.

4.2 Consent and opt-outs. You agree that you will obtain the legally required prior express consent from every recipient before you send them a message, keep records of that consent, include required disclosures, and honor opt-out requests immediately and on every channel you use. The Service automatically recognizes common opt-out words such as STOP, UNSUBSCRIBE, CANCEL and QUIT, marks the contact Do Not Contact and blocks further messages to that number from your account. A text that the carrier blocks because the person opted out has the same result. This is a safeguard. It does not replace your own responsibility. We do not review each list or message in advance, and we rely on your confirmations and on these Terms. Responsibility for having consent rests with you.

4.3 No legal advice. LeadTextor does not provide legal advice. Our tools, guides, templates, prompts and warnings are general aids and are not a guarantee that your messaging is lawful.

4.4 Acceptable Use Policy. Your use of the Service must follow our Acceptable Use Policy, which sets out the messaging rules, prohibited content (including the SHAFT categories: sex, hate, alcohol, firearms and tobacco) and conduct, and the rules for Skip Tracing, the Phone Validator and AI tools. A breach of that policy is a breach of these Terms.

05 Messaging, Phone Numbers and A2P Registration

5.1 Registration is required. You must complete A2P 10DLC brand and campaign registration, and have it approved by the carriers and registry, before you send campaigns. We help with the process and provide assisted approval on every plan. Approval is decided by the carriers and the registry, not by us, and we do not guarantee it. We may suspend an account that has not completed required registration or that fails carrier validation. No refund is owed for usage or fees lost because of such a suspension. If brand verification fails, you can appeal it by sending supporting business documents and a short explanation, or correct your brand details and resubmit them. An appeal costs $11 and a resubmission costs $4.50, each time. The fee is taken from your Wallet Balance when you submit, and your Wallet Balance must cover it. Approval is decided by the carriers and the registry, not by us, so an appeal or resubmission does not guarantee approval. Please make sure the business details you submit are accurate before you submit your registration.

5.2 Phone numbers. We provide sending numbers for your account. You receive the right to use a number while your account is active and in good standing. You do not own a number. Numbers are provided through carriers and messaging partners, can be changed, replaced or withdrawn when required by them or by law, and are released if your account is not paid within the period described in Section 10 and in the Refund and Cancellation Policy. A released number cannot be recovered. To keep your A2P campaign registration active you must keep at least one active number on your account.

5.3 Automatic protections. We monitor messaging patterns. To protect deliverability and compliance, the Service has automatic protections that can pause a campaign, freeze a sending number, block a message that triggers a prohibited or spam rule, or deactivate or restrict an account, for example because of a high opt-out rate or low deliverability. We may apply these protections without prior notice. In summary: a campaign that is paused for low delivery or a high opt-out rate stays on hold for 24 hours and can then be resumed by you, and our team may allow an earlier resume; a sending number with poor health is frozen, and your campaign then continues automatically from your other healthy numbers (follow-up campaigns keep the number they started with), and is paused if no

healthy number is left; and an account that is deactivated by an automatic protection is reactivated only by our team. A frozen number is not deleted, and its monthly fee continues until you delete the number or our team activates it again. The measures and limits we use are described in Section 10 of our Acceptable Use Policy and may change as carrier rules change.

5.4 Call forwarding. If you turn on call forwarding, calls made to your LeadTextor numbers are forwarded to the phone number you enter. You are responsible for that number being correct and for having the right to receive forwarded calls on it. Calls may be subject to carrier charges that are outside our control.

06 Skip Tracing and Phone Validation

6.1 What they are. Skip Tracing looks up contact details such as phone numbers, emails and addresses for individual property owners, in three modes (Normal, Advanced and Parcel). The Phone Validator checks whether a phone number is valid and shows its line type, carrier and general location. Both rely on information supplied by third-party data sources.

6.2 Individual owners only. Skip Tracing is for individual property owners. For business or entity lookups, contact us.

6.3 Permitted purposes only. Skip Tracing results are provided for your own records, such as researching an owner, preparing comps and preparing contracts. The restrictions in the Acceptable Use Policy apply to all Skip Tracing results. In particular, you must not use them for bulk messaging or cold marketing, you must not add them to messaging campaigns or automations in the Service, and you must not use them to make decisions about credit, employment, tenant screening, insurance or any other purpose covered by consumer reporting laws.

6.4 We are not a consumer reporting agency. Skip Tracing and the Phone Validator do not provide “consumer reports” and are not intended to be used as one.

6.5 No guarantee of accuracy. Results can be incomplete, out of date or wrong. A record with no match is a normal outcome. You are responsible for verifying information before you rely on it.

6.6 How these services are charged. The cost of a Skip Tracing job or a Phone Validator check is reserved from your Wallet Balance when you start. Records with no phone number and no email, and jobs that cannot be completed, are returned to your wallet automatically, and unused validation cost is returned. The details are in Section 09 and the Refund and Cancellation Policy.

6.7 Operating rules. You can run one Skip Tracing job at a time. A Skip Tracing job can contain up to 25,000 unique records after duplicates and rows without an address are removed. A Phone Validator or contact upload file can contain up to 5,000 rows that have a phone number, and only one file can be checked at a time. Skip Tracing is not available to a deactivated account. Phone validation results are kept for 14 days and are then deleted, so download them before then.

07 AI-Assisted Features

The Service includes AI-assisted tools, such as message drafting and rewriting, follow-up suggestions, replies and conversation notes. These tools use third-party AI model providers, to which the text needed for your request is sent. You acknowledge and agree that:

- AI-generated content can be inaccurate, incomplete or inappropriate;
- the AI does not send messages by itself. You review and approve every draft before it is sent;
- you are solely responsible for reviewing and approving everything you send, including its legal compliance; and

- we are not liable for any result of AI-generated content.

08 Your Data and Content

8.1 You own your data. You keep ownership of the data and content you upload or create in the Service, such as contact lists, messages, campaigns, templates, buyer information, deal records and files (“Your Data”).

8.2 License to us. You give us a limited, non-exclusive license to host, store, process, transmit and display Your Data only as needed to provide and secure the Service to you, to comply with law and to enforce our policies. We use your data as described in our Privacy Policy. We do not sell it.

8.3 Your promises about Your Data. You confirm that you have the legal right to upload and use Your Data, that it was lawfully obtained, and that your use of it through the Service does not breach any law or any right of another person. You must not upload contact lists that were obtained unlawfully or that you do not have the right to use. When you upload a contact list, you confirm by ticking a box that you have the right to use it and the consent to text the contacts on it.

8.4 Our role. For the personal information of the people you contact, you decide why and how it is used, and we process it for you to provide the Service.

8.5 Exporting. The Service has tools to download your contacts, campaign data and conversation history. You are responsible for exporting anything you want to keep, especially if your account is suspended, cancelled or unpaid (see Section 10).

8.6 We are not responsible for Your Data. We are not responsible for the accuracy of Your Data or for the consequences of how you use it.

09 Fees, Billing and Payments

9.1 Prepaid Wallet Balance. The Service runs on a prepaid Wallet Balance. You add funds, and fees are taken from it. If your Wallet Balance cannot cover an action, that action is blocked, and the balance cannot go negative. Monthly billing is the default. Yearly billing is available on request through live chat, and its terms are confirmed with you when it is set up.

9.2 Current prices. The standard prices at the effective date of these Terms are shown below, in US dollars (USD). Our Pricing page and your account always show the prices that apply to you. Some accounts have custom pricing that is shown in the account.

Item	Price (USD)
Starter plan	$40 per month
Professional plan	$60 per month
Outgoing text message	$0.02 per segment
Incoming text message	Free
Phone number (each active number)	$2 per month
Phone validation	$0.008 per number checked
Skip Tracing, Normal mode	$0.05 per record

Item	Price (USD)
Skip Tracing, Advanced mode	$0.10 per record
Skip Tracing, Parcel mode	$0.15 per record
A2P 10DLC registration fee and monthly fee	Included in your plan fee, for a limited time
Brand verification appeal (if brand verification fails)	$11 each time
Brand verification resubmission (if brand verification fails)	$4.50 each time
Standard vetting fee (optional)	$50
Enhanced vetting fee (optional)	$120

A text message is billed per segment. A standard message of up to 160 characters is one segment. Longer messages, and messages with emoji or accented characters, are split into more segments. The A2P 10DLC registration fee and monthly fee are included in your plan fee for a limited time. We may end this inclusion, with notice as described in Section 9.9. The vetting fees shown above apply only if vetting is requested for your registration, and they can change if the carrier registry changes its fees. If brand verification for your registration fails, you can appeal or resubmit it. Each appeal costs $11 and each resubmission costs $4.50. These fees are taken from your Wallet Balance when you submit, and they are not refundable, including if the appeal succeeds.

9.3 Monthly charges. Your plan fee and the fee for each active phone number are billed monthly, whatever your usage in that month, and are taken from your Wallet Balance, not charged directly to your bank card. Number charges are taken first, then the plan fee. Your monthly sending count resets at the start of each calendar month.

9.4 Adding funds. Each wallet recharge is a minimum of $20 and a maximum of $5,000. You can pay by card, PayPal, alternative checkout, manual invoice or cryptocurrency, depending on what is available on your account. We recommend adding only the amount you expect to use soon. A new account must have at least $50 (Starter) or $70 (Professional) in its Wallet Balance before it can submit its A2P registration, so that your first charges can be paid.

9.5 Reservations. When you schedule a campaign, its estimated cost is reserved from your Wallet Balance, and the part that is not used is returned automatically. The cost of a Skip Tracing job or a Phone Validator file is reserved in the same way when you start, with the returns described in Section 6.6.

9.6 Billing failures. If your Wallet Balance cannot cover your monthly charges, an “Amount owed” card shows what is due and your account moves through the notice, suspension, number release, reactivation and data deletion steps in Section 10 and the Refund and Cancellation Policy. When you add funds to an account that owes money, what is due is paid from that payment first.

9.7 Refunds. Fees are billed in advance or as they are incurred and are non-refundable except as stated in these Terms and the Refund and Cancellation Policy.

9.8 Taxes. Prices do not include taxes. You are responsible for any sales, use or similar taxes that apply to your purchases, other than taxes on our income.

9.9 Price changes. We may change our prices or plans. We will give notice in the app or by email before a change affects your monthly fees, and continuing to use the Service after the change takes effect means you accept it.

9.10 Payment disputes. If you think you were charged in error, contact us first so that we can review and correct it. If you start a chargeback or payment dispute for a charge that is valid, we may suspend your account and recover what you owe.

9.11 Yearly billing. Monthly billing is the default. Yearly billing is optional and is set up through live chat.

9.12 Coupon codes and bonus credit. From time to time we may offer coupon codes for Wallet recharges. When you apply a valid code, we add a bonus credit to your Wallet Balance after your payment succeeds. Bonus credit is a promotional benefit. It has no cash value, cannot be withdrawn or transferred, is not refundable, and is not part of any cancellation refund described in the Refund and Cancellation Policy. Coupon codes are not valid for payments made by cryptocurrency. We set the minimum recharge, limits and expiry of each code, we may change or end a code at any time, and we may cancel bonus credit that was obtained through abuse, error or a breach of these Terms.

9.13 Changing your plan. Where this option is available on your account, you can switch between Starter and Professional from your Profile page. An upgrade starts immediately: the difference between the two monthly plan fees (currently $20) is taken from your Wallet Balance at once, and the higher limits apply right away. A downgrade is scheduled to start on the 1st day of the next month. Until then you keep your current plan and its limits, and you can cancel the scheduled change before it starts. You can make up to 3 plan changes per calendar month and one per day. You must have no unpaid bills, and your Wallet Balance must cover an upgrade. A plan fee that has already been billed is not refunded when you change plans. Accounts with custom prices or limits change plans through live chat.

9.14 Extra monthly capacity (add-ons). Where this option is available on your account, you can buy extra sending capacity for the current month from the Monthly Capacity card in your Profile. A small add-on ($5) adds 1,000 messages and a large add-on ($15) adds 5,000 messages to your monthly sending cap, and each add-on also raises your daily sending limit for that month. You can buy up to 3 add-ons per calendar month, and only when you have no unpaid bills. The price is taken from your Wallet Balance once, when you confirm. The extra capacity ends on the 1st day of the next month, and unused extra messages do not carry over. An add-on is sending capacity only. It is not SMS credit, and every message you send is still billed from your Wallet Balance at your normal message price. An add-on is applied immediately and is not refundable. Prices and amounts can change, and your account always shows what applies to you.

9.15 Auto Top-Up. If you turn on Auto Top-Up, you authorize us to charge the card you choose a fixed amount ($50, $100, $200 or $500) each time money is taken from your Wallet Balance and your balance is left below the level you set ($10 to $500). The top-up is made right after that charge, at most 3 times per day and $1,000 per calendar month. If a charge is declined it may be tried once more the next time money is taken from your Wallet (at least 6 hours later), and if it fails again Auto Top-Up switches itself off. You can turn Auto Top-Up off at any time on the Wallet Recharge page. Manual recharges do not count toward these limits. The authorization text shown when you turn it on is the one that applies.

10 Suspension, Termination and Data Deletion

10.1 Our right to suspend or end your account. We may suspend, restrict or terminate your account, with or without notice, for any of the following, or where we reasonably believe it is necessary to protect the Service, other customers, recipients, carriers or the law:

- a breach of these Terms or the Acceptable Use Policy;
- spam complaints, abuse reports, or a high opt-out or complaint rate or low deliverability over time;
- a carrier, registry, regulator or legal requirement;
- suspicious, fraudulent or unlawful activity; or
- non-payment of fees.

Where we suspend your account because of a breach or a compliance concern, we are not required to refund fees, Wallet Balance or usage lost as a result.

10.2 What a deactivated account can do. While an account is deactivated, you cannot send messages, create or resume campaigns, upload or delete contact lists, use AI generation tools, or use Skip Tracing. You can still sign in to review your data and use the export tools, and you can keep managing items such as tags, reminders and templates.

10.3 Failed payments. The sequence for a failed monthly payment is described in the Refund and Cancellation Policy. In summary: you receive a warning each day from the 1st to the 3rd of the month, your account is suspended on the 4th, and if the balance is still unpaid 15 days after the suspension, your phone number(s) and A2P campaign registration are released and cannot be recovered. A new number and a new A2P registration, and the reactivation fee described in that policy, are then needed to resume.

10.4 Reactivation. A billing suspension is lifted automatically once everything that is owed has been paid. An account that was deactivated for a safety or compliance reason, including by an automatic protection, or by us, is reactivated only by our team, and after reactivation its sending results are measured afresh from the next day. A campaign that was paused by an automatic protection can be resumed by you after its 24-hour hold, or earlier if our team allows it.

10.5 Cancelling. There is no self-service cancel button. To cancel, contact us through live chat so that we can review any dues and confirm your final charges. If you cancel while your account is in good standing, your account becomes inactive right away, your phone number(s) and A2P campaign registration are released immediately, and your account and its data are permanently deleted on the last day of the current month. You are responsible for exporting what you want to keep before then. The effect of cancelling on fees and your Wallet Balance is set out in the Refund and Cancellation Policy.

10.6 Data deletion. Your account data (contacts, campaigns, message and conversation history, Skip Tracing results) is not deleted when your account is suspended, and it is not deleted when your number is released. It is permanently deleted 90 days after your last successful billing date if no payment has been received in that time. Deleted data cannot be recovered. You can ask us to delete your data sooner by contacting us. If you cancel in good standing, your data is deleted as described in Section 10.5. You are responsible for exporting what you want to keep.

10.7 What continues after the end. Sections that by their nature should continue (including fees owed, Your Data rules, disclaimers, limits of liability, indemnification and dispute resolution) continue after your account ends.

11 Third-Party Services and Integrations

The Service works with third-party providers, such as mobile carriers, messaging and number providers, payment processors, AI model providers, data providers and cloud hosts, and integrates with tools you choose, such as Zapier, Make, GoHighLevel and Podio. Your use of a third-party tool is governed by its own terms and privacy policy. We are not responsible for third-party services, their availability, or what they do with data you send to them. If you connect an integration, you authorize us to send and receive data through it on your behalf.

12 Intellectual Property

12.1 Ours. The LeadTextor name, logo, software, designs and website content belong to LeadTextor and are protected by intellectual property laws. We give you a limited, non-exclusive, non-transferable, revocable right to use the Service for your own business during your subscription. You may not copy, modify, reverse engineer, scrape, resell or redistribute any part of the Service without our written permission.

12.2 Yours. You keep your rights in Your Data (Section 8).

12.3 Feedback. If you give us ideas or suggestions about the Service, we may use them freely without obligation to you.

13 Disclaimers and Availability

The Service is provided “as is” and “as available.” To the fullest extent the law allows, we disclaim all warranties, express or implied, including merchantability, fitness for a particular purpose, accuracy and non-infringement. We work to keep the Service reliable, but we do not promise that it will be uninterrupted or error-free, that messages will be delivered, or that any particular delivery rate, response rate, lead, deal or result will be achieved. Message delivery depends on third-party networks and carriers. Skip Tracing and phone validation results depend on third-party data and may be inaccurate.

14 Limitation of Liability

To the maximum extent permitted by law, LeadTextor and its owners, officers, employees and partners are not liable for any indirect, incidental, special, consequential, exemplary or punitive damages, or for any loss of profits, revenue, data, goodwill or business, business interruption, or message delivery failure or delay, however caused, even if we were told it could happen. Our total liability for all claims arising out of or relating to the Service or these Terms will not exceed the amount you paid us in the 30 days before the event that gave rise to the claim. Some laws do not allow certain limits, so these limits apply only as far as the law allows.

15 Indemnification

You agree to defend, indemnify and hold harmless LeadTextor and its owners, officers, employees and partners from any claim, demand, penalty, fine, damage, liability or expense (including reasonable legal fees) arising out of or related to: your use of the Service; your messages, calls and marketing practices, including any claim under the TCPA or similar laws; Your Data; your breach of these Terms or the Acceptable Use Policy; or your violation of any law or the rights of any person.

16 Dispute Resolution

16.1 Talk to us first. Before you file a claim, please contact us at **contact@leadtextor.com** and give us 30 days to try to resolve the matter informally.

16.2 Arbitration. If a dispute cannot be resolved informally, you and we agree to resolve it through final and binding arbitration on an individual basis, rather than in court. This does not apply to claims that qualify for small claims court, to claims that either of us brings to stop the misuse of intellectual property, or where the law does not allow arbitration.

16.3 No class actions. You and we each waive any right to bring or take part in a class action, collective action or class-wide arbitration.

17 General

- **Compliance with U.S. law.** Because the Service is used within the United States, you agree to comply with all applicable U.S. federal and state laws and regulations.

- **Entire agreement.** These Terms and the policies named in Section 1.5 are the entire agreement between us about the Service and replace any earlier terms.
- **If a part is invalid.** If any part of these Terms is found unenforceable, the rest stays in effect.
- **No waiver.** Not enforcing a right is not a waiver of it.
- **Assignment.** You may not transfer these Terms without our consent. We may transfer them in a merger, acquisition or sale of our business.
- **Events beyond our control.** We are not responsible for a failure or delay caused by something outside our reasonable control, such as a carrier or network outage, a cloud or utility failure, a government action or a natural event.
- **Notices.** We may send notices to the email address on your account, by notification in the app, or by posting on our website. Notices to us go to the contact details in Section 19.

18 Changes to These Terms

We may update these Terms from time to time. We will change the effective date at the top. For material changes we will give notice in the app or by email. If you keep using the Service after a change takes effect, you accept the updated Terms. If you do not agree, you must stop using the Service and may contact us to cancel.
